

POLICY ON PICK-UP ORDERS PERSONAL TRAILER / TRUCK

1. ***Customers are responsible*** for the liability, operation, and operational function of their *personal truck or trailer*. This includes, but is not limited to:
 - a. **Tires are to be filled appropriately.** Legacy Turf Farms is not responsible for flat tires, nor are we available to fill flat tires.
 - b. **Weight limits of vehicles and trailers are to be obeyed.** 1 pallet of sod weighs 2500 pounds: 1 and ¼ tons. 2 pallets weigh 5000 pounds: 2 ½ tons, etc. If the vehicle or trailer shows signs of being over the recommended payload, or tires are not filled, or vehicle otherwise appears unsafe, we will not load the sod pallet(s).
2. If the vehicle you have chosen is insufficient to carry the weight of the sod, we will have you a) hand load part of the pallet or b) recommend you return with a vehicle that can safely handle the weight.
3. In our experience at our farm, trucks and trailers below are not capable of holding the weight of a sod pallet. Please **DO NOT USE** the following for pick ups of sod:

TOYOTA TACOMA, FORD RANGER, NISSAN FRONTIER

SINGLE AXLE TRAILER
